PROFESSIONAL EXPERIENCE:

5+ years of experience as a Software engineer working on web development projects. I love to develop Web applications with new technologies.

1. Zonda Urban, (*September 2021 - Present*)

- Working as **lone front-end react js engineer** in a team of 3 developers in start-up environment
- Managing the front-end tasks of the subscription platform of the company
- Converting the **legacy react class components** into **functional react components**
- Working in scrum and following **agile methodology**
- Undertook the responsibility of handling devops to setup the project and attain DEVOP's self-sufficiency with bitbucket pipelines
- Using **Figma** and **Canva** to create mock-up designs for new features and then implementing the same

2. Ingram Micro, (*July 2016 - August 2020*)

- Managed the reports and looked after maintaining the dashboard in Google Analytics. Implemented Angular2 project in Return Management.
- Developed websites using Bootstrap, JQuery, JQuery Datatables, and HTML 5
- Integrated the **REST API** developed by the backend team with **React JS** portal.
- Worked in a diverse scrum team and followed Agile methodology for a global project.
- Developed a reporting tool for Netherland's marketing team using **Angular** as frontend and backend API's in PHP with MySQL as database. I was **lead developer** and handled the team of three developers.
- Conducted workshops and technical presentations with topics related to HTML 5, Bootstrap, React JS and Angular.
- Worked on creating UI mockups of the web portals in Photoshop, communicating it with the stakeholders and then implementing the same.

3. IIT Bombay, *internship (March 2015 - April 2016)*

- Developed a website as a final year project with **HTML**, Javascript, **CSS**, PolymerJs for frontend and **PHP** as a backend language.
- The project was based on the idea of giving a platform for the users to help people in need using the google maps API.

4. Major Tom , *industry project (January 2021 - April 2021)*

- Developed a Shopify App for a grocery store using NextJS and NodeJS
- Developed a web portal for brands using NextJS, Bootstrap with NodeJS backend and MySQL as the database.
- Followed **SCRUM** and **Agile** methodology with sprint planning, retrospectives and conducting user research and interviews.
- Created technical design documentation for the handover of the project.
- Assisted the designers with creating a Figma prototype.

5. Microsoft , *industry project (May 2021 - August 2021)*

- Developed a **REACT** website for displaying the changes in BC Tech Ecosystem using different data visualization libraries like D3.js, AntDesignCharts, leaflet.js
- Learnt and implemented azure pipelines and releases with CD/CI
- Followed **SCRUM** and **Agile** methodology with sprint planning, retrospectives and conducting user research and interviews.

SKILLS:

Web Technologies: JavaScript, jQuery, AJAX, Bootstrap, React JS, HTML 5, CSS, LESS, TypeScript, NodeJS, Firebase, PHP, Redux

Methodologies: Agile/ Scrum, Waterfall

Database: MySQL, NoSQL

Analytics: Google Analytics, Google Tag Manager

Design: Adobe Photoshop, Adobe X.D., Figma, Canva

Version Control: Github, Bitbucket, Gitlab

Certifications / Achievements:

- Microsoft Technology Associate: Web Development Fundamentals [2015]
- Certified Scrum Developer [2018]

EDUCATIONAL QUALIFICATION:

- Masters in digital media from Center for Digital Media, Vancouver (2022)
- Bachelor of engineering in Information Technology, Mumbai University (2016)

HOBBIES:

- Playing cricket and soccer
- Playing FIFA
- Traveling and exploring new places
- Learning new technologies, and exploring things on the internet
